Property Management by:
WESTVIEW
REAL ESTATE, INC.

June 12, 2012

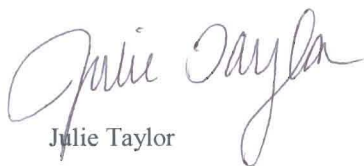

To Whom it May Concern:

We are a smaller property management company that manages approximately 200 units throughout Bellingham, who primarily turn over units during the summer months. Obviously timing and efficiency are incredibly important to our business and having reliable vendors is a crucial part of this process.

We have worked closely with Carpet Care Cleaners for two full turnover seasons and are continuing our business relationship this summer. This crew is always on top of their game—they're extremely prompt, flexible, trustworthy, provide a great value for the services they perform (the carpets are clean—and quickly and inexpensively!) and are so great to interact with. One of my favorite things about them is not feeling that I need to remind anyone of their schedule—it always gets done, without question. These guys are honest and reliable enough that I would trust them to clean my own home!

I have no doubt that you will find just as much value in their services as we do and for that reason I strongly recommend Carpet Care Cleaners.

Sincerely,

Julie Taylor
Office Manager
